

Policy on English language requirements

Policy statement

Section 16 (b) of the Health Practitioners Competence Assurance Act 2003 requires the Medical Council of New Zealand (Council) to be satisfied that any doctor seeking registration in New Zealand is able to communicate in and comprehend English sufficiently to protect the health and safety of the public.

Rationale

A doctor making an application, either for registration or for sitting the New Zealand Registration Examination (NZREX Clinical), must first satisfy Council that their ability to communicate in and comprehend English is sufficient to protect the health and safety of the public.

Requirements

To be accepted to sit NZREX Clinical or to be registered with the Council, applicants must demonstrate they meet one of the eight following English language requirements.

- A. Have a primary medical qualification from a New Zealand medical school.

- B.
 - (i) Speak English as a first language; and
 - (ii) Have an acceptable primary medical qualification from Australia, the United Kingdom, the Republic of Ireland, the United States, or a Canadian or South African medical school where English is the sole language of instruction of that medical school.

- C.
 - (i) Satisfy the Council of work as a registered medical practitioner where English was the first and prime language, for at least 2 years within the 5 years immediately prior to application, which must include:
 - a) a period of 6 months continuous work at one workplace; or
 - b) participation in a recognised formal vocational training programme* in Australia, the United Kingdom, the Republic of Ireland, the United States, Canada, or South Africa for a period of 6 months; or
 - c) completion of a recognised formal vocational training programme* in Australia, the United Kingdom, the Republic of Ireland, the United States, Canada, or South Africa; and
 - (ii) Provide the names and contact details of at least two referees who are senior medical practitioners who speak English as a first language, and who can attest to the applicant's ability to comprehend and communicate effectively in English in a clinical setting with both patients and professional colleagues. Referees must have worked with the applicant for at least 6 months. Referees will be contacted directly by the Council or a body Council authorised to do this (employer or recruitment agency).

**Recognised formal vocational training programmes are: Fellowship of one of the Australian or Australasian medical colleges in Australia; the Membership or Fellowship of a Royal College in the United Kingdom or Ireland accompanied by a Certificate of Completion of Training in the United Kingdom or Completion of Specialist Training in Ireland; Fellowship of the Royal College of Physicians and Surgeons of*

- D. Pass the Academic Module of the International English Language Testing System (IELTS) by achieving a minimum of the following within one result:

Minimum required scores:

- Speaking 7.0
- Listening 7.0
- Writing 7.0
- Reading 7.0

Validity of IELTS results

IELTS results are valid within:

- 2 years of an application for registration.
- 2 years of NZREX Clinical examination date (new candidate).
- Repeat candidates for NZREX Clinical will not be required to re-sit IELTS for up to 5 years of the examination date if they have been, since the last NZREX Clinical sat, residing continuously in New Zealand, Australia, the United Kingdom, the Republic of Ireland, the United States, Canada (English speaking region, not Quebec) or South Africa. Acceptable evidence includes a letter of reference from an employer or landlord with a passport displaying visa or residency.

-
- E. Pass the Medical Module of the OET by achieving a minimum score of 350 in each of the four components (reading, writing, listening and speaking) within one result.

Validity of OET results

OET results are valid within:

- 2 years of an application for registration.
- 2 years of NZREX Clinical examination date (new candidate).
- Repeat candidates for NZREX Clinical will not be required to re-sit OET for up to 5 years of the examination date if they have been, since the last NZREX Clinical sat, residing continuously in New Zealand, Australia, the United Kingdom, the Republic of Ireland, the United States, Canada (English speaking region, not Quebec) or South Africa. Acceptable evidence includes a letter of reference from an employer or landlord with a passport displaying visa or residency.

-
- F. (i) Satisfy the Council of having completed at least 24 months full time equivalent of a health-related postgraduate qualification (diploma, masters or PhD) at an accredited New Zealand university within the 5 years immediately prior to application; and
- (ii) Provide references from two professors from an accredited New Zealand university who are registered as doctors in New Zealand and who speak English as a first language. The referees must be able to attest to the applicant's ability to read, write, speak and understand spoken English.
-

-
- G. (i) Have been granted registration with the Medical Council of New Zealand on or after 18 September 2004 which was cancelled for administrative reasons (and not as a result of an order of the Health Practitioners Disciplinary Tribunal or a direction by the Council under section 146 or 147 of the HPCAA); and
- (ii) Provide the names and contact details of at least two referees who are senior medical practitioners registered in New Zealand, and who can attest to the applicant’s ability to comprehend and communicate effectively in English in a clinical setting with both patients and professional colleagues. Referees will be contacted directly by the Council or a body Council authorised to do this (employer or recruitment agency).
-
- H. For applying for registration only, pass the NZREX Clinical examination, within the 5 years immediately prior to application.
-

Notes

Incomplete applications

Applications for registration, or applications to sit the NZREX Clinical, are incomplete if they are submitted without sufficient evidence of meeting one of the English language requirements listed above. Council cannot consider incomplete applications.

NZREX Clinical candidates

If comprehension and communication deficiencies are noted during NZREX Clinical, candidates will be required to undertake further remediation and/or testing of their ability to comprehend and communicate effectively in English before being eligible to apply to re-sit NZREX Clinical (if needing to re-sit) or to apply for registration.
